HEALTHCARE ACADEMY FOR WOMEN

BEGINNS MAR. 3

The Program

This 10-week program prepares students for entry-level positions in healthcare facilities such as Fish River Rural Health, Northern Light Health, and Katahdin Valley Health Center. Courses cover a variety of topics specific to healthcare including career skills for healthcare, math for healthcare, basic anatomy, electronic health record, medical terminology, First Aid/CPR, HIPPA, immunization techniques, as well as clinicals exposing students to phlebotomy, labs, appropriate hygiene procedures, and vital signs. The curriculum will give information about and prepare students for career pathways to CNA, LPN, RN, MLT, and direct and non-direct service positions in the industry. Automatic interviews to those who complete.
