

EssentialEd CASAS/HiSet Academy

Student Instruction

To Login

1. You should receive an email from EssentialEd when your teacher sets up your student account. This email will have your username and password.
2. You can also find your username and password on the **Login Info]** tab of your **Learner Profile**.
3. Go to www.essentialed.com/start/msad1 and enter your username and password.
4. Select either the HiSet Academy (on the left) or CASAS GOALS Academy (on the right) whichever your teacher has instructed you to enter.
5. The first time you log in you will see a brief introductory video. You can watch this if you want or scroll down and click **Get Started**.
6. You will be asked to enter a study goal. This is the number of hours you plan to study each week. Set this at whatever you like.
7. Then on the left side of this same screen you will see your course topic listed. Click on the topic your teacher tells you to start working in.
8. If this is the first time you are getting into your course it will ask you to take an **Appraisal Assessment**. Click to start this assessment. This will allow the program to assess the areas where you need more instruction and the program will set a lesson plan just for you.
 - Every time you log in after this you will be taken to your homepage that shows the next lesson in your lesson plan, what lesson you have already completed and your level of mastery.
 - In addition to your Lesson Plan you may also see other assignments that your teacher has specifically given you, as well as review lessons over lessons you completed but did not master.
 - You will also be able to see your overall progress in your lesson plan.
 - The program will also track all the time that you spend studying so your teacher can keep track of it for you.
